2. The Licensee shall notify the Council regarding commencement of work in prescribed proforma as per Appendix D1.

  
(Clen Madeira)  
Chief Officer

3. The construction should be done by maintaining the minimum prescribed horizontal and vertical clearances from any overhead electrical line passing adjacent to the construction.
4. All RCC/Structural works shall be designed and supervised by the Engineer who has signed the Structural Liability Certificate submitted to the Municipal Council.
5. No material for construction or earth from excavation or any other construction material shall be stacked on the Public roads, footpaths, gutters etc.
6. The Building should not be occupied unless the occupancy certificate is obtained from the Council.
7. The construction licence shall be revoked if the construction work is not executed as per the approved plans and the statements therein and whenever there is any false statement or misrepresentation of any material passed, approved or shown in the application on which the construction licence was issued.
8. The Licensee should construct a separate soak pit in order to derivate in the sullage water.
9. Any soak pit / septic tank should be constructed at a minimum distance of 15 meters away from any existing well.
10. The ventilation pipe of the septic tank should be provided with a mosquito net.
11. The Licensee should connect the pipelines from their latrines/WC's to the sewerage line at their own cost, when the sewerage line is commissioned.
12. The Licensee should fix a board at a prominent place whenever the construction is started, indicating the number, the date and the authority from which the licence for construction work has been granted.
13. All the building material and other rubbish should be cleared from the construction site before applying for the Occupancy certificate.
14. Water storage tanks shall be provided with mosquito proof lids and over flow pipes. The tanks should be provided with access ladders wherever necessary.
15. The drains surrounding the plot if any should be constructed with PCC and should be covered with removable RCC precast slabs of sufficient thickness and sizes.
16. The Licensee should gift the road widening area to the council before applying for the Occupancy certificate, if the applicant has utilized the extra FAR in lieu of the road widening affecting the plot.
17. The Licensee should plaster and paint the building internally as well as externally before applying for Occupancy certificate. Exposed brick/laterite/concrete/stone/ashlars masonry finish to buildings will also be permitted.
18. The Licensee should provide a dustbin or a composting unit at a convenient place accessible for the Municipal vehicle for collection of garbage.
19. Road widening area shall be asphalted to the existing road level before applying for occupancy certificate.
20. Garages and Parking areas shown in the approved plan shall be strictly used for parking purposes only and should be easily accessible to vehicles. No commercial activities shall be allowed in these areas.

  
(Clen Madeira)  
Chief Officer

21. Access up to the entrance of the building is to be paved and is provided with drainage facilities.
22. Space for parking of vehicles should be clearly demarcated on the ground.
23. No Restaurants/Bars will be permitted in the shops unless a separate soak pit is provided besides confirming to the rules in force i.e. without obtaining Occupancy Certificate.
24. No commercial activities will be permitted in the shops unless a separate permission to this effect is obtained from this council.
25. All temporary sheds/existing buildings shown to be demolished in the plan should be demolished before applying for Occupancy certificate.
26. Fire Escape staircases, if applicable shall be constructed as indicated in the approved plans.
27. All internal courtyards should be provided with drainage outlet.
28. The Licensee should maintain all existing natural drains in the plot and should not block them at any stage.
29. No soak pit or other structures should come in the road widening area.
30. The plot boundary should be cordoned off by continuous sheet fencing either of wood or metal during the construction period.
31. The construction of compound wall should not obstruct any pathway or any public access. The Licensee shall make necessary arrangements for smooth flow of rain water by keeping adequate openings in the compound wall for the purpose.
32. No gates shall open outwards on to the road.
33. The construction of the compound wall should be as per the approved plan. The Licensee shall inform this council after the completion of the compound wall.
34. The Licensee shall undertake construction for composting station / Recycling station within the premises for treatment and disposal of biodegradable Municipal Solid waste, as per design and size approved by the Mapusa Municipal Council before applying for Occupancy Certificate.
35. Storage of water should be done in such a way that mosquito breeding doesn't take place either by introducing fish in the tanks / wells or properly covering the iron drums / plastic tanks etc. or by observing dry day once a week.
36. Overhead tanks / sumps are to be provided with mosquito proof lids and other pipe fittings without any hole for the entry of mosquitoes. Outlet is to be covered by muslin / wire mesh. Ladder for inspection of the tank to be installed if required.
37. Curing water collection should be treated with anti-larval chemicals by the Licensee.
