

CASA EL TOLEDO

BALINESE DUTCH ARCHITECTURE

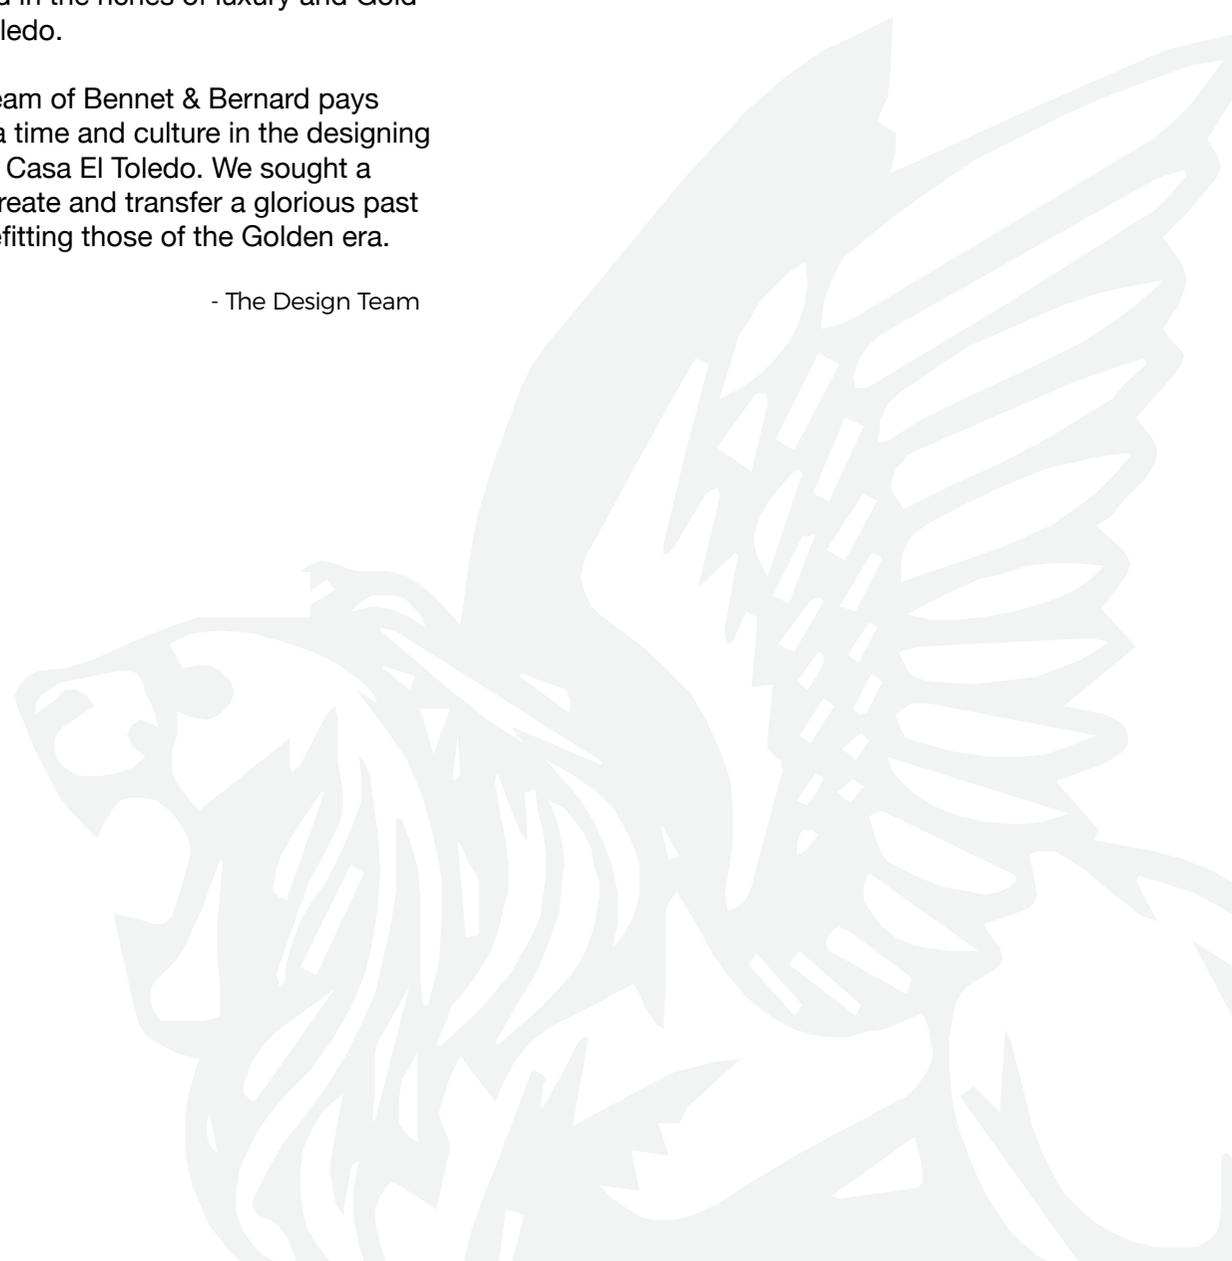

\*Representational Images are not actual project images and are strictly for representational purposes only and will vary in planning and designing and upon actual construction.

The concept of Casa El Toledo draws inspiration from a golden era dating back to the XVIth century. The then known story of a city drowned in the riches of luxury and Gold - Casa El Toledo.

Today the team of Bennet & Bernard pays homage to a time and culture in the designing & making of Casa El Toledo. We sought a journey to create and transfer a glorious past to clients befitting those of the Golden era.
